Well here it is... A nice little tune which should be played on a western guitar with loads of beer and friends. A real crowd pleaser

The chord structure is:

Verse: G#m - G#m7sus - B - E

Bridge: B-E

Chorus: (E) - B - A - E - E - B - A(mute the strings here) - E

and so on....

The G#m7sus chord is played this way:

464474 (EADGBE) Remember to mute the strings with your right hand palm. (Listen to the record and you'll get it right).

Enjoy...
